# ■ How to do factory reset

1) Check if a camera has 0.25mm pitch 3pin connector on PWR#2 Board

2) Touch the first and second pins with a metal pincette like the picture shows.

IDIS One Solution. One Company.

■ How to do factory reset

※ Closer Look

3) Power the camera holding the pincette touching the two pins.

4) After around 5 seconds, detach the pincette.

5) Check if the camera is reset.
